1. CIBIL Credit Score Analysis

Score: 757

Rating: Good

Interpretation:

- A CIBIL score of **757** places the applicant in a **low-risk borrower category**.
- The score is closer to the prime segment (750–800), indicating responsible past credit behavior.
- Typically, lenders offer **competitive interest rates** and **longer tenures** for borrowers in this range.

Implications:

- Eligible for **personal loans, home loans, credit cards, and two-wheeler loans**.
- Can potentially negotiate for **lower interest rates** (~10–11% on personal loans, ~8.5–9.5% for home loans).
- Likely to get **pre-approved credit offers** from banks or NBFCs.

2. Employment and Income Stability

Employer: Tech Mahindra Limited (Tier-1 IT MNC)
Band: U1 (Fresher/Junior Engineer Level)
Department: IT Delivery
Tenure: ~2.5 months (as of June 2025)

Net Take-Home Pay:

Month	Net Pay (₹)
April 2025	23,006
May 2025	23,673
November 2024	23,549

Earning Components:

- **Base Salary:** ₹9,283
- **HRA:** ₹6,498
- **Flexi Pay & Bonus:** ₹3,000 – ₹4,000
- **Advance Variable Pay:** ₹1,135 – ₹1,447

Remarks:

- Salary is **consistent** and well-structured.
- **No LOP (Loss of Pay)** days in the payslips; this implies full-month attendance and stable work ethics.
- PF, AWT contributions visible (₹1,115 – ₹1,189 per month), indicating formal employment with social security.

Loan Implication:

- Eligible for **starter loans** or **Fresher Credit Plans** offered by banks like HDFC, ICICI, SBI, etc.
- Likely personal loan eligibility (₹50,000 – ₹2,00,000) with a tenure of up to 3 years.
- Two-wheeler loans (₹75,000 – ₹1.5L) easily accessible with minimal documentation.

3. Bank Statement Analysis (State Bank of India)

Balance Trends:

- Opening Balance: ₹2,571.36
- Daily transactions show multiple **₹1000 UPI debits**.
- Frequent **NEFT credits of ₹2000** from a PhonePe-linked Axis Bank account.

Observation:

- Very low balance maintained: ₹571.36 as of 07 Jun 2025.
- Reflects **low cash retention**.
- Daily transaction patterns indicate **regular UPI payments**, possibly for expenses, utility bills, or personal transfers.
- Absence of large deposits or savings habits.

Red Flags:

- **No salary credit seen** in this account — ICICI is likely the salary account.
- No recurring investments (RD/FD/SIPs) seen.
- No EMIs, card payments, or loan-related transactions visible.
- May be perceived as low liquidity profile by banks unless supported by ICICI statement.

4. Overall Financial Behavior & Spending Pattern

Strengths:

- Regular salary income through formal employer.
- No missed days of work; PF and statutory deductions indicate stable employment.
- High CIBIL score (~757) indicates timely repayments or no negative credit history.

Weaknesses:

- No visible **savings behavior or investment patterns**.
- SBI account balance stays under ₹3,000 — might be seen as a sign of low financial discipline.
- No active liabilities or existing loans are seen — which is neutral but provides no credit mix.
